Summary

Motivated Java Developer and Full Stack Developer with comprehensive training in web development technologies. Currently expanding expertise in Spring Boot framework with hands-on experience in Core Java and modern web development practices. Seeking internship opportunities at innovative technology companies to contribute technical skills and grow as a software developer.

TECHNICAL SKILLS

Programming Languages : Core Java, JavaScript, HTML5, CSS3, SQL
Frameworks & Libraries : Spring Boot (Learning), React Js, JDBC, Bootstrap
Web Technologies : RESTful APIs, MVC Architecture, Responsive Design, JSON, XML
Databases : MySQL, Database Design, SQL Query Optimization
Tools & Platforms : Git, GitHub, Maven, Eclipse IDE, Visual Studio Code, Postman
Development Practices : Object-Oriented Programming, Data Structures,

Academic Projects

Furniture Web Application | Full Stack Project Academic Project | 2025
- Designed and developed a fully functional e-commerce platform using Java, React Js, Spring boot, and MySQL
- Implemented user authentication, product catalogue and shopping cart.
- Applied MVC architecture for clean separation of concerns and maintainable codebase
- Optimized database queries resulting in 40% faster page load times and improved user experience

Investor Management System | MySQL Database Project Academic Project | 2025
- Designed and implemented a relational MySQL database system to manage and track investor financial data efficiently
- Created and normalized multiple tables including Transaction, Salary, Income, Investor Portfolio, and Expense
- Established primary and foreign key relationships to ensure data integrity and reduce redundancy
- Developed SQL queries for accurate financial reporting, transaction tracking, and expense analysis
- Improved data organization and retrieval efficiency for better financial insights and decision-making

Hotel Booking Portal | Front-End Web Project Academic Project | 2025
- Designed and developed a responsive, multi-page hotel booking website using HTML, CSS, and Bootstrap
- Implemented five core pages: Home, Booking, Hotels, Registration, and Login for smooth user navigation
- Created a user-friendly interface to browse hotel listings and manage booking workflows
- Ensured full responsiveness across desktops, tablets, and mobile devices using Bootstrap grid and components
- Focused on clean UI design and consistent layout for an intuitive user experience

Education

Full Stack Web Development with Java
IT Vedant | Expected Completion: May 2025 - May 2026
- Intensive training in full-stack development covering front-end and back-end technologies
- Hands-on experience with Java-based web applications, database integration, and modern frameworks
- Developed multiple projects demonstrating proficiency in end-to-end application development

Python Programming
A-EIT Computers (2019 – 2020)
- Trained in Python fundamentals, data handling, and practical programming applications

Bachelor of Commerce (B.Com)
Prakash Degree College (2014 – 2017)
- Focused on accounting, finance, and business management concepts

Certificates

- Masters in Full Stack Web Development with Java.
- Python Programming.
